## 1. Achievements Since Last Week

We focused on implementing backend functionalities for playlist and song routes, setting up essential databases, designing UI elements, and developing key frontend pages for the app interface.

STT	Description	Due Date	Responsibility	% Complete
1	Basic layout for Sign Up page	26/10/2024	Võ Ngọc Khoa	100%
2	Created skeleton for playlist route in backend	25/10/2024	Trần Trung Hiếu	100%
3	Trending Artists, Homepage layout	25/10/2024	Phạm Hà Hiếu	100%
4	Initial Figma designs for main screens	26/10/2024	Nguyễn Duy Bảo	100%
5	Set up MongoDB for data storage, created skeleton for song route in backend	24/10/2024	Lê Gia Huy	100%

## 2. Issues and impacts

- Design Adjustments for Homepage
  - Issue: Midway through the design, adjustments were needed based on additional requirements.

- Impact: Design timelines were extended slightly as Bảo needed to update the initial layouts.

### 3. Next week's goals:

Building on our current progress, next week's focus will be on finalizing wireframes and mockups, refining the project setup, and starting work on API endpoints.

## 5. Issues and impacts

- Design Update Requirement
  - Issue: A new version of Figma designs introduced layout changes to the homepage.
  - Impact: Required Hà Hiếu to adjust Trending Artists and Playlist sections, extending layout development time.
- API Endpoint Testing Coordination
  - Issue: Backend and frontend teams faced coordination challenges during API endpoint testing.
  - Impact: Delayed integration tests, affecting development timelines for authentication and other routes.

## 6. Next week's goals:

For the upcoming week, we will shift focus towards implementing complete backend functionality, improving UI based on finalized designs, and conducting integrated endpoint testing.
