

# Sprint Planning Meeting

18/11/2024 – 1/12/2024

Group ID: **02**

Project Name: Beatify

Sprint: 3 (18/11 - 1/12)

Prepared by: **Nguyễn Duy Bảo**

Date: 16/11/2024

Attendees:

22127152 – **Lê Gia Huy**

22127114 – **Phạm Hà Hiếu**

22127115 – **Trần Trung Hiếu**

22127203 – **Võ Ngọc Khoa**

22127031 – **Nguyễn Duy Bảo**

## 1. Sprint Objectives

- Develop and enhance core features to improve user engagement and functionality.
- Finalize key interface layouts to ensure a seamless and polished user experience.
- Implement robust backend systems to support advanced playlist and playback features.

## 2. Key Deliverables

- Fully functional playlist and subscription interface for users.
- Complete setup and integration of backend systems for managing likes and playlists.
- Resolved layout errors to ensure consistent and error-free design.
- Functional features for "previous," "next," and "shuffle" to enhance the music playback experience.
- PA3
  - Use-case specification - 2nd submission
  - Define software architecture
  - Class diagrams

- Weekly report 5 & 6

### 3. Task Breakdown

STT	Description	Due Date	Responsibility
1	Creating playlist and subscription section for users	22/11/2024	Võ Ngọc Khoa
2	Setting up and complete the backend for "like feature" and playlist	22/11/2024	Trần Trung Hiếu
3	Configuring song recommendations based on users' liked songs.	22/11/2024	Phạm Hà Hiếu
4	Finishing and fixing the layout error for the Artist page and Playlist page.	22/11/2024	Nguyễn Duy Bảo
5	Completing the player context management feature for "previous", "next" and "shuffle"	22/11/2024	Lê Gia Huy

### 4. Additional Notes

- Collaboration between front-end and back-end teams is critical for smooth feature integration.
- Make sure thorough testing of playing and playlist functionalities to meet user expectations.
- Prioritize layout fixes to maintain design consistency across the platform.
